Portfolio: [abhishekbhonde](#)

## INTERESTS

Web Development, Flutter,  
Java, Designing, Devops

## PROJECTS

### Code Alone

- Code Alone is a dynamic and innovative coding platform designed for individuals and teams to collaborate effectively on software development projects. This project was conceptualized, designed, and developed by me, and it showcases my expertise in software development, project management, and teamwork.
- Tech-Stack: **Typescript, React js, Web Socket, Node Js**

### Microservices Deployment with Kubernetes

- Successfully managed a project titled "Microservices Deployment with Kubernetes," showcasing expertise in Docker, Kubernetes, and AWS.
  - Containerized a monolithic application into microservices for improved scalability and efficiency, orchestrated microservices on AWS using Kubernetes, and automated CI/CD pipelines with Jenkins.
  - Ensured high availability, security, and efficient resource management, along with comprehensive documentation for seamless team onboarding and maintenance.
- Tech-Stack: **Docker, Kubernetes, Jenkins, AWS**

## OPEN-SOURCE

### Hacktoberfest 22-23

- [Hacktoberfest 22:](#) Contributed to various communities on Github and Gitlab, Got badges of Hacktoberfest22
- [Hacktoberfest 23:](#) Maintainer at Hacktoberfest23 and Contributed to various communities

## ACHIEVEMENTS

- Volunteer at AWS Community 23 organised by AWS Pune
- Volunteer at Cloud Native Day Pune organised by CNCF Pune
- Postman Student Fundamental Expert
- Web Lead At ACM RSCOE
- Completed Cloud Skill boost Certification by GCP

## FREELANCER

Developed projects based on web-development. In this i worked on live projects. Some of projects were industry based. Learnings were technical skills along with communication skill
